

YOUR TOWN HALL

CONSENT AGENDA

Committeewoman Brightbill was not present for this meeting.

KNOWN ACTION ITEMS

Meeting minutes for the March 15 and April 5 Executive and Regular Session meetings were approved with all members voting to accept them. Committeeman Fiore abstained from voting for the March 15 Executive Session minutes because he was not in attendance during that meeting.

There was a public hearing on ordinance 2010-3005 Amending Sections 202-3 of the Code of the Township of Precious Metal and Gems. No members of the public to come forward to speak towards this ordinance. The Committee all voted in favor of its passage.

Two new ordinances were introduced at this meeting. The first, 2010-3006 will amend the Township code, updating the provisions for mandatory recycling programs so that they conform to the County solid waste management plan.

The second ordinance, 2010-3007 will amend the Township code regarding the Fire and First Aid departments. They will submit a financial checklist instead of a copy of their financial audit to the Township, as it is now stated in an existing ordinance that was passed this year. This is required in order to receive financial support from the Township.

These ordinances are not yet available to the public as of this release.

These two ordinances will have a public hearing and vote at the June 21 meeting.

The Consent Agenda usually consists of all resolutions, bingo & raffle applications and firefighter applications. The Committee typically votes on these in one block, thus calling it a consent agenda. Certain resolutions are pulled for separate votes by different Committee members or the Clerk.

There were nine resolutions voted on at this meeting. They are numbered 10-146, 10-147, 10-148, 10-149, 10-150, 10-151, 10-152, 10-153 and 10-154. (These resolutions are located at the end of the newsletter and each number above is a link to that resolution. At the end of the resolution is a link to bring you back here.)

Before voting took place Committeeman Byrnes asked that a resolution he presented for consideration at the last meeting be added to the consent agenda. Mr. Byrnes reviewed what was discussed at the last meeting regarding this subject of forming a new committee consisting of two Township Committee members, three BOE members and some members of the general public with financial experience. This committee would review various budgets in town including the Township, BOE and even the Sewer Authority budgets to find savings which would be recommended to the Township Committee.

The Mayor stated that the resolution has not been to the attorney for review and he would not consider including it on the agenda. Mr. Byrnes stated that he had sent it to the Clerk before the previous meeting and also copied the members of the Committee after the discussion at that meeting. The Mayor said that he received the email, but there was no attachment to it. He also said that it was a last minute addition to the agenda and the Committee needed to review it. Mr. Byrnes explained that there have been many resolutions presented just before a meeting in which they had to be voted upon and that he felt

YOUR TOWN HALL

that this was an urgent matter given the financial situation in the Township and BOE budgets. (The Township fiscal year began on January 1 and the Township had a deficit, at that time, of \$5M.) Mr. Byrnes did not get a second on his motion to add the resolution so it was not considered for a vote.

Resolution 10-146 authorizes the payment of bills for May. This is a very long document and contains every item that the Township paid for during the month. This resolution passed with a vote of 3-1 with Committeeman Sean Byrnes voting against it. This payment of bills resolution was voted upon separately as it is at most meetings.

The Mayor requested that resolution 10-151, regarding the BOE budget cuts be pulled for a separate vote. This resolution passed with all members present voting in favor of it.

Committeeman Byrnes commented that he voted to approve the cuts and that it was a very difficult issue given the passion involved. He went through the email submitted by Township residents, which helped him decide. He said that he is in support of the Governor trying to reduce spending at the state level. Mr. Byrnes said that the recommended budget cuts were just short term fixes and that there were missed opportunities to implement some long term solutions in how the township, as a whole, does business. He reminded the Committee that he tried to introduce a resolution that would have been effective in doing this. He said the State cuts to the BOE budget were large and that the Township cut even more. He did not think that the Township does enough to cut its' own budget. Mr. Byrnes believes that there are large savings in combining property maintenance with the DPW, Parks & Rec and the BOE and that cooperation is needed in order for the Township to survive.

Committeeman Fiore commented that he agreed with Mr. Byrnes in regards to the BOE budget. He said that it is important to recognize

that the Committee looked very hard and tried not to cut that which did not impact the children. He said that a lot of credit goes to the BOE for making these recommendations and as Mr. Byrnes said, they did look at administration positions in the school system. He said that the cuts represented more than half of what the tax increase would have been.

The Mayor commented that the BOE budget process was a learning exercise and that he was not used to doing something like this. He asked the teachers union for a wage freeze and was disappointed that a vote was not taken as in other towns. He said that their hands were tied by a number of restrictions that are mandated by the state and that the Governor is looking to eliminate or wave some of the mandates. The Mayor said that the cuts will not have a noticeable change in the caliber of education that is provided in town. He said that he received some suggestions from the Township website where over 700 responses were submitted. He said that 90% of the suggestions asked for a wage freeze.

COMMITTEE COMMENTS

Committeeman Byrnes started by saying that the budget is a lot about a process. He said that there was a lot of fear and frustration in the suggestions that were submitted through the website and that it is incumbent of the elected officials to put their heads together and figure out a better way of doing business. He said that the BOE and the Township Committee need to function more closely and that the two bodies are very similar in objectives. He said that the BOE will be negotiating teacher contracts next year and some savings can be realized at that time.

Mr. Byrnes feels strongly that a committee should be formed now so that a plan could be produced by October 1 to realize some savings. He said that the budget process must be

YOUR TOWN HALL

transparent and discussed in front of the public as much as possible. He said that the Committee should meet to go over the comments submitted and release some reaction to them.

Mr. Byrnes mentioned that he will continue to look at ways to recycle and that the Township should have a major solar energy project. He also said that we need to get a process in place for our own budget.

Committeeman Massell commented that he agreed with what Mr. Byrnes and the Mayor had to say. He said that he was glad that the school board budget cuts did not affect the teachers and programs.

Committeeman Fiore commented that he also echoed a lot of what Mr. Byrnes had said. He stated that he sat down with the Administrator and the Mayor about areas in the school budget to cut. He said that the timing was not there to do much with the insurance policies at the BOE. He said that the Committee is doing a lot to share services. Energy costs continue to rise and a solar project in town would be good.

Mr. Fiore complimented the Mayor on the suggestion box idea to get public comments on the school budget. He said that many provided their names and he hopes the suggestion box remains for the township budget process. Mr. Fiore also mentioned that Memorial Day is coming up and he wanted to recognize the troops.

Mayor Scharfenberger commented that there is a lot of work needed in the school budget. He said that out of 700 comments submitted there were about 700 different suggestions. He said that the Governor has a broad based support in the number of budgets that were defeated.

The Mayor is awaiting the Mayors Toolbox from the Governor. He said that the Lt. Governor was in town last Thursday and that he signed on to support the toolbox initiative. He said that the toolbox will reform Civil Service and he is excited about that. He said that the

Governor is trying to build support for the toolbox and that he will do whatever it takes to see it pass.

The Mayor said that the Green Initiative is waiting for a proposal from a company to install solar panels and it should be in place by the fall if not sooner. He said that it is just a plan and there is talk of installing a canopy at the train station parking lot and putting solar panels on top of it.

He said that the VFW is a great bunch of patriots. They installed new officers and they support a veterans committee in the Township. He said that there were 3 Eagle Scouts sworn in this past weekend. He also said that 2 of the unions in town have agreed to a 0% increase for 2010. There were 2 agreed to tonight and 2 others were proposed.

PUBLIC COMMENTS

Dawn Lehotsky wanted details regarding the cuts in the school board budget. The Mayor replied by saying that the resolution was in a book at the back of the Court Room. She said that the recommendations might be fantastic but they were not the final word. The Mayor said that the BOE told him that and an additional \$800k could be cut for health care expenses. Also, if they refinanced a bond it would produce more savings. He then read the resolution listing all of the cuts that were recommended. Ms. Lehotsky asked when Mr. Doering or Mrs. Bilbao were informed of the recommendations and the Mayor said that they got the information over the weekend. He said that they also had some idea before the weekend. Ms. Lehotsky said that there should have been a public meeting between the BOE and the Township Committee. She said that the BOE is very quiet now and that this is fueling the spread of rumors around the school community. She said that the lack of transparency is a big problem.

YOUR TOWN HALL

Dawn Diorio stated that when over \$12M is cut from the school budget it will have an affect in the classroom. She asked what the dollar amount was after the meetings with the BOE.

The Mayor said that it was \$1.6M and after reading the comments submitted on the Township website he felt that additional cuts were needed. He said that Tony Fiore met with Steve Massell and that Pam Brightbill met with Sean Byrnes to inform all of the Committee members of the cuts.

Ms. Diorio asked if the Administrator or Superintendent knew of the additional cuts in staff. Mr. Fiore said that they did not know. She said that the recommendations in the resolution are band-aid fixes and that the Committee should take up Sean Byrnes' idea of forming a committee to review the budgets.

Pat Walsh asked when the dollar amount of the cuts was communicated to the BOE. The Mayor said that he spoke to Mrs. Bilbao over the weekend as a courtesy. Mr. Fiore said that the dollar amount could have changed over the weekend or that the resolution could have been voted down that evening. Mrs. Walsh wanted to know if any of the details were discussed or if there was any written communication. The Mayor said that there was nothing in writing to confirm the communication.

Jeff Blumengold thought that requesting input on the Township website was a good idea, but that details should be offered. He wanted to know why the details of the BOE budget could not be known or why a link to the BOE budget was not provided on the Township website. Mr. Fiore said that their budget was posted on the BOE website. Mr. Blumengold wanted to know how the suggestions were verified before they were offered. Mr. Fiore said that he went to the Administrator. The Township Administrator, Tony Mercantante, said that the website comments were just to get a sense of where the community felt that cuts in the budget could be.

The details were provided in their introduced budget. Mr. Fiore also said that other recommendations were made that were not feasible and that it wasn't a one way process.

Mr. Blumengold wanted to know why there hasn't been a public discussion before the resolution was voted upon. He said that it would have been better from a transparency point of view if it had been discussed publicly. He also wanted to know what the Township was going to do to plan with the BOE. The Mayor told him to stick around after the meeting to discuss it further.

Jeanette Wronka wanted to know the outcome of the meeting that took place with the Township, Congressman Pallone and the Army Corps of Engineers (ACE) in the past week with regards to the flooding in Port Monmouth. Township Engineer, Ted Maloney, said that Phase 2 of the flood control project might not be funded and that the Township was looking at other means to fund it with federal funds.

Mr. Mercantante said that the beach replenishment project is almost funded and that none of the monies could be diverted toward the pumping station that is in Phase 2. He said that ACE mentioned that they would consider moving the flood gate on Pews Creek up to the beginning of the big project, instead of leaving it until the end of the project. He felt that the pumps could be an interim solution, but installing the gate should be moved up.

Jim Grenafege suggested that the comments that were submitted for the school budget be posted online for the public to review. He said that the budget process is seriously flawed and that there is a lack of transparency. He said that trying to negotiate a wage freeze in public by making personal appeals to the unions with a public letter is like throwing gasoline onto smoldering embers. He said that that may have sabotaged negotiations and that he should not try issues politically in the public domain. Mr. Grenafege asked Committeeman Byrnes if

YOUR TOWN HALL

he sanctioned the letter that the Mayor issued on Township letterhead. Mr. Byrnes said that an email was sent to him, but he was out of town that weekend.

Don Watson asked if the resolution with the proposed school board cuts could be posted on the Township website the following day. He also said that there were other resolutions that were introduced at the last minute at other meetings earlier in the year that were not posted and wanted them to be posted also. He also asked how much of the Township flood plains were cleared of phragmites since the Township purchased the machine to rid the flood plain of them. Tony Mercantante said that the Township had bonded for the purchase last year but has not yet purchased the machine. He said that they will do so soon.

Michelle Sassano said that she has been trying to follow the COAH because she lives by the Avaya site. She said that it appears that a traffic study is taking place in the area. The Mayor told her that the Governor explained to him that COAH will be gone by the end of the month. Township Attorney, Brian Nelson, said that bill S1 is stalled in the Legislature and that the Governor rolled out something similar and is trying to push it through before the State budget is enacted on July 1. He said that there will probably be a court challenge to it.

Andrew Bane came to say that they needed a replacement for Marge Kempson on the Bayshore Village Senior Housing Corp.

Kevin Halek said that he came to the Committee a number of times last year and that the Mayor and some of the Committee members did not understand what was happening in his neighborhood regarding the amount of flooding that was taking place. He wanted to know when the Mayor had a full understanding of the situation because he was quoted in the newspaper as saying that he has been working on this problem for 10 years. Mr. Fiore said that they were aware of the flooding problems in the

Bayshore area but did not know of the Pt. Monmouth problem specifically.

Mr. Halek said that he has been seeking a solution to the flooding for 20 years and has not seen federal funding materialize. He said that the solution should be found in the budget of Middletown and that was the only way the project would be completed. Mr. Fiore said that the pumps will be portable and that if we had to wait we are looking for alternatives. Mr. Halek said that the flooding is still persistent 3-4 days in a row per month. He said that there are safety hazards in the water and that properties are being destroyed with the salt water. He also said that every time he comes to the Township Committee he gets another story from them and that the federal funding story is not going to be acceptable to the families that are in his neighborhood.

The Mayor made a motion to close the meeting, a second was received and all members voted in favor to close the meeting.
